

Java::Lang::Object

ActionBar::ITabListener

SQLite.Android.Sample.Tab
Listener< T >

```
classDiagram
    class JavaLangObject["Java::Lang::Object"]
    class ActionBarITabListener["ActionBar::ITabListener"]
    class SQLiteAndroidSampleTabListener["SQLite.Android.Sample.TabListener< T >"]
    SQLiteAndroidSampleTabListener --|> JavaLangObject
    SQLiteAndroidSampleTabListener --|> ActionBarITabListener
```

The diagram illustrates the class hierarchy for `SQLite.Android.Sample.TabListener< T >`. It is a generalization of both `Java::Lang::Object` and `ActionBar::ITabListener`. The relationships are indicated by blue arrows pointing from the child class to the parent classes.
